Experience

Designer – Inteli2D Group Ltd.

FEBRUARY 2014 - PRESENT

My role as Designer at Inteli2D gave me the ability to work with small to medium sized businesses, predominantly designing eCommerce and brochure sites to promote and sell products and services. This involved sector research, brand design, site design and social media profile design all within agreed budgets and timescales. This role also involved print design for internal projects, mainly involving leaflets, banners, stickers and business cards.

Junior Designer – Inteli2D Group Ltd.

DECEMBER 2012 - FEBRUARY 2014

As Junior Designer at Inteli2D, I was involved with the design of small business & car dealership websites. This involved working with the client to create a stunning online presence for their business. Often involving brand design and social media profile design, this role gave me the platform to learn the skills needed to be an effective designer. I was also involved with updating promotional banners, designing newsletters and other design changes to client websites.

Apprentice Web Designer – Progressive Marketing Ltd./Harlow College

MAY 2012 - DECEMBER 2012

My apprenticeship in Web Design involved designing brochure sites for local small businesses whilst completing my education and qualification in web design.

Boswells School

2004 - 2009

GCSEs A-C - History, Double Science, English Literature, English Language, Maths, Drama, Music, RE, German, Business Studies

Interests & Hobbies

Boxing

I'm an avid fan of boxing and train mainly for fitness and self defence. I have had two charity white collar bouts and I remain undefeated, so I'm just waiting on the call from Anthony Joshua.

Football

Although I haven't quite reached the heights of Messi, I do have a runners up trophy for a local 6-a-side league which I'm pretty sure Lionel hasn't won yet.

Music

I am obsessed with music and I have been appointed office DJ at my current workplace. I also play guitar and attempt to write songs.
